

K-Tek® JUNE 2009 Price List

Boom Poles

K-Tek® Klassic Boom Poles

- High-density, light weight graphite. Our proprietary "captive collet" locking system.
- Soft-Touch rubber sleeves for better grip.
- The bottom can be fitted with any of the Klassic pole base units: bottom or side XLR connector (CC, CCR),
- Flow-Through for straight cabling (FT), or K-Tek's Transmitter Adapter (K-TA) for plugging in a wireless transmitter. (XLR 5-pin stereo cable and accessories available)

The K-Tek® Klassic is the original Academy Technical Award-Winning Boom Pole!!

Model	Length	Sect	Lbs.	Description	List
K-56	1'4" - 4'11"	5	0.652	The most compact of the K-Tek Klassic line of boom poles	\$370.00

K-CCR	Base unit with Right Angle XLR for internal coil cord	\$115.00		
K-FT	Flow Through Base for internal straight cord	\$65.00		
K-FTS	"Stubby" Flow Through Base	\$65.00		
K-CK-	Klassic Cable Kit - <i>Kit includes: Coiled Cable cut for your poles length, a TA3F connector soldered onto bottom of cable and a K-Tek 3 pin Female Switchcraft connector for the Top of Cable. Requires purchase of K-CC or K-CCR.</i>	\$80.00		
K-CK-56	Cable Kit for the K-56 Klassic Pole	\$80.00		
K-CK-81	Cable Kit for the K-81 Klassic Pole	\$80.00		
K-CK-102	Cable Kit for the K-102 Klassic Pole	\$80.00		
K-CK-152	Cable Kit for the K-152 Klassic Pole	\$80.00		
K-CK-202	Cable Kit for the K-202 Klassic Pole	\$80.00		
K-EX60	5' Extension Section for Klassic Poles (for poles without coil cable)	\$325.00		
K-EX50	4' 2" Extension Section for Klassic Poles (for poles without coil cable)	\$285.00		
K-EX40	3' 4" Extension Section (for poles without coil cable)	\$250.00		
K-EX30	2' 6" Extension Section (for poles without coil cable)	\$225.00		
K-EX20	1' 8" Extension Section (for poles without coil cable)	\$185.00		
K-HE	750 gr. "HODGES effect" Brass weight	\$65.00		
K-QC	Quick Connect Unit incl. one Spud	\$65.00		
K-QS	Package of three Spuds for K-QC	\$35.00		
K-QSL	Long Spud for K-QC	\$25.00		
K-LEC	Lectrosonics Connector (Also works with AT)	\$100.00		
K-TA NEW!!	Transmitter Adapter Side Mount	\$125.00		

Stereo models available where applicable/ call for pricing

K-Tek® AVALON Boom Poles

• Available with the same quality of graphite fiber tubing as used on the Klassic line, or in cost-effective aluminum versions of 3, 4, 5 and 6 sections. All models benefit from the same high-reliability collars with captive collets. When factory wired, a high-quality coiled cord is mounted inside the pole with a sturdy male XLR receptacle for a bottom or side exit. Recognizable by checkered collars, unlike the dimpled collars used on Klassic series. Bottom sections are fixed mount and do not accept accessories such as extension sections, etc.

K-Tek® AVALON "GRAPHITE"

Model	Length	Sect	Lbs.	Description	List		
KEG-60	19.3"-5'	5	0.687	Carbon fiber boom pole.	\$325.00

Accessories

K-Tek® Microphone Support Products:

Model	Description	List		
K-GPS	Microphone Suspension; very versatile high tech suspension, using K-SUS Suspenders that are spaced 3 1/5" (9 cm). Weight: 220 lbs (99 g)	\$165.00		
K-GPSS	Short version of the K-GPS high tech suspension; the Suspenders are spaced 2" (5 cm). Weight: 195 lbs (88 g)	\$165.00		
K-SUS	Pair Microphone Suspenders ™	\$20.00		
K-SM	Microphone Shock Mount: The microphone is held firmly in two polymer mounts spaced 2" (5 cm) apart. The mounts stretch to accommodate most shotgun mics. May be used with K-WA Windshield Adapter.	\$135.00		
K-SMS	Microphone Shock Mount: The microphone is held firmly in two soft polymer mounts spaced 2" (5 cm) apart. The mounts stretch to accommodate most shotgun mics. May be used with K-WA Windshield Adapter.	\$135.00		
K-S40	Pair of NORMAL Rubber Mounts for SM/SSM	\$20.00		
K-SSM	Microphone Shock Mount for short microphones: The microphone is held firmly in two polymer mounts spaced 1 3/8" (35 mm) apart. The mounts stretch to accommodate most shotgun mics. May be used with popular windshields by means of the K-WA Windshield Adapter.	\$135.00		
K-SSMS	Microphone Shock Mount for short microphones: The microphone is held firmly in two soft polymer mounts spaced 1 3/8" (35 mm) apart. The mounts stretch to accommodate most shotgun mics. May be used with popular windshields by means of the K-WA Windshield Adapter.	\$135.00		
K-S30	Pair of SOFT Rubber Mounts for SM/SSM	\$20.00		
K-MT NEW!!	K-MOUNT 4-Point universal shock mount, using K-SUS Suspenders	\$85.00		
K-MTS NEW!!	K-MOUNT SHORT 4-Point universal shock mount short version, using K-SUS Suspenders	\$85.00		
KE-US	Economical, universal suspension mount, using K-SUS Suspenders	\$60.00		
K-DA-SM	Dual Angle Shock mount. (NO Angle Adjustments)	\$85.00		
K-DA-SSM	Dual Angle Short Shock mount. (NO Angle Adjustments)	\$85.00		
K-CAM-SM	K-SM Shock Mount for Camera Shoe	\$85.00		
K-CAM-SSM	K-SSM Shock Mount for Camera Shoe	\$85.00		
K-HG	Hand Grip: The K-HG Hand Grips can be used with either mount to hand hold the system and easily attach to a pole or stand. It is simply a foam covered graphite tube with a K-Tek pole head and a threaded base. Weighs only 2.7 ounces and doesn't look silly at the end of a boom pole.	\$65.00		
K-HGW	Hand Grip Wired: The K-HGW is wired with soft cloth covered cable for maximum noise isolation.	\$100.00		
K-BC	The boom cradle supports a boom pole and attaches to a grip stand knuckle with a stainless steel spud.	\$185.00		
K-SA	Shoe Adapter for DV Cameras	\$35.00		
K-SSA New!!	Shoe Step Adapter repositions shoe 2" above camera shoe	\$45.00		
K-BRG NEW!!	Shoe Bridge provides a 6.5" (16.5cm) bar for mounting accessories 4" over the camera	\$85.00		
K-BRG-S NEW!!	Shoe Bridge Short provides a 5" bar for mounting accessories 4" over the camera	\$85.00		
K-OSE	Off-Set Shoe Extender	\$65.00		
K-CA NEW!!	K-TEK CLAMP ADAPTER KIT for cameras. Universal clamp adapter kit	\$36.00		
K-MS	20mm M/S Stereo Adapters for K-GPSS (For Schoeps Stereo Microphones)	\$35.00		
K-WA	Windshield Adapter	\$35.00		
K-SF	Slot Filler for Sennheiser MZW 60-1 Windscreen	\$20.00		

K-Tek® High Quality Audio Coiled XLRm to XLRfe Mic Cables

Model	Description	List		
K-36NN	Approximately 3 ft of coiled cable which will stretch to approximately 18 ft. Neutrik Male and Female XLR connectors.	\$64.00		
K-36NK	Approximately 3 ft of coiled cable which will stretch to approximately 18 ft. Neutrik Male and Female XLR connectors.	\$69.50		
K-18NN	Approximately 1.5 ft of coiled cable which will stretch to approximately 9 ft. Neutrik Male and Female XLR connectors.	\$50.00		
K-18NK	Approximately 1.5 ft of coiled cable which will stretch to approximately 9 ft. Neutrik Male and K-Tek Right Angle Female XLR connectors.	\$55.50		
K-6NN	Approximately 6 inches of coiled cable which will stretch to approximately 4ft. Neutrik Male and Female XLR connectors	\$39.50		
K-6NK	Approximately 6 inches of coiled cable which will stretch to approximately 4ft. Neutrik Male and K-TEK Right Angle Female XLR connectors.	\$44.00		
K-4NN	Approximately 4 inches of coiled cable. Neutrik Male and Female XLR connectors.	\$39.50		
K-4NK	Approximately 4 inches of coiled cable. Neutrik Male and K-TEK Right Angle Female XLR connectors.	\$44.00		

K-Tek® WINDSCREENS

• This unique range of windscreens offer effective solutions for wind & handling noise reduction and microphone protection at affordable prices.

K-Tek® Zeppelin®

- The Zeppelin system consists of a mold-injected polypropylene microphone basket, 2 rubber retaining rings with removable sonic foam mushroom caps, XLR attached pig tail, and a snug-fitting lined **faux fur High-Wind cover**.
- The microphone is supported by K-Tek's popular K-Mount (K-MT) or K-SSM, which can accommodate microphones from 19-25 mm in diameter.
- The modular K-Tek Zeppelin assembles and dismantles quickly, for compact storage and travel, and easy replacement of parts. Once the system is installed, the microphone can be slid out of the basket at any time for use while still mounted on the suspension.
- Options include a fleece cover for use in lighter weather, and a hefty hand grip for handhold away from a boom

Model	Description	List		
K-ZEPP-S	Basket/Casing - length 11 1/4" (for microphones like the Sanken CS-1)	\$375.00		
K-ZEPP-M	Basket/Casing -- length 13" (for microphones like the AT4073A)	\$395.00		
K-ZEPP-L	Basket /Casing -- length 16" (for microphones like the Sennheiser ME66)	\$425.00		
K-ZEPP-XL	Basket/Casing - length 19" (for microphones like the Sennheiser ME67)	\$450.00		

The **K-Tek® Zeppelin** also has the added accessory of a Fleece/Microfiber cover for as a light weather option cover; it will actually work great in heavier weather as well.

Model	Description	List		
K-ZFC-S	Charcoal Grey Fleece/ Microfiber cover for Short Zeppelin	\$85.00		
K-ZFC-M	Charcoal Grey Fleece/ Microfiber cover for Med. Zeppelin	\$85.00		
K-ZFC-XL	Charcoal Grey Fleece/ Microfiber cover for X-Long Zeppelin	\$85.00

K-Tek® Soft-Zepp US by Reinhardt **NEW!!!**

- Extremely simple high wind protection option.
- Light weight large diameter foam with fixed fur cover on a Kraton rubber hand grip. (microphone is simply inserted in back.)

Model	Description	List		
KR-SFT-ZEPP	Soft Zeppelin with fixed fur cover and rubber hand grip	\$275.00		

K-Tek® Slip-On Fuzzy

- An excellent wind protection system for exterior recording with shotgun microphones.
- K-Tek's unique design combines a traditional faux fur exterior that breaks up the wind with a tightly woven fabric backing - making the Fuzzy the only slip-on windscreen with a layer of extra protection.
- The system's body of open cell foam slides smoothly over the mic head and fits snugly around the microphone capsule to provide additional support and insulation.
- It is available in 6 lengths to fit most shotgun mics and accommodates microphones from 17 to 25mm in diameter.

Model	Description	List		
Z-FSO-T	Fuzzy Slip-On Windscreen - Tiny (interior length 3")	\$110.00		
Z-FSO-XS	Fuzzy Slip-On Windscreen - XS (interior length 3.5")	\$110.00

Z-FSO-XL	Fuzzy Slip-On Windscreen - XL (interior length 10")	\$110.00		

K-Tek® Combination Fuzzy Windscreen/Shock Mount

- The K-Tek combination Shock Mount/Fuzzy™ is the only one piece windscreen/shock mount system. It is a slip on fuzzy with a built in K-SM shock mount. The system can be ordered with a swivel adapter for mounting on 3/8-16" or with a built in shoe adapter for mounting onto a camera.
- The windscreen features an outer layer of synthetic fur backed with a lining of tightly woven microfiber fabric and a body of open cell foam that fits snugly around the microphone capsule.
- The Shock Mount is based on the popular K-Tek K-SM.
- It is ideal for ENG and documentary recording.
- The system is available in 3 different lengths. Accommodates microphones from 17 to 25mm in diameter. Note that S-M-L sizes for combo mount are NOT the same S-M-L designations as used for slip-on fuzzies. Refer to size chart or call us.

Model	Description	List		
Z-FZ-S	Combination Windscreen/Shock Mount with boom adapter- Short (inside 7 1/2")	\$250.00

Z-CAM-FZ-L	Combination Windscreen/Shock mount with a shoe - Long (12")	\$200.00		

K-Tek® Whispers by Reinhardt NEW!!!

- Traditional style faux fur windscreen.
- The Whisper employs a core of 35ppe open cell acoustic grade foam surrounded by a 30mm layer of synthetic, light weight fur. A neoprene end cap with soft black leather trim fits snugly over the bare microphone. The standard model has a core diameter of 50mm and is for use in camera-mounted microphones- it is designed to keep the windscreen from appearing in a shot when a wide-angle lens is used. A Hi-Wind (HW) version with a larger core diameter of 65mm is also available.

Model	Description	List		
KR-W22-70	Whisper for ME64	\$99.00
